## Send a Free Fax to Anywhere in the World

If you don't have a fax machine at hand, or if the cost of sending an international fax seems prohibitive, this should interest you.

The screenshot shows the HelloFax website interface. On the left is a dark sidebar with navigation options: 'Send a fax' (selected), 'Sign documents', 'Documents', 'Team', and 'Getting started'. The main content area is titled 'Send a fax' and contains two steps:

- 1. Add files of any kind** *Step 1: Upload a file or fetch from the cloud*  
 Includes an 'UPLOAD FILES' button and a dashed box for file selection. Below the box are icons for various cloud services: Google Drive, Box, Dropbox, Evernote, and Google Drive.
- 2. Enter fax number or email address**  
 Includes a text input field containing '+91 22 4000 4543' and a dropdown menu set to 'India'. Below the input is a blue 'Send it now' button.

*Step 2: enter a fax number and you're good to go*

*Send an online fax for free to any fax machine in the world*

HelloFax, the online fax company, has recently partnered with Microsoft and now lets you send up to 50 pages per month to any fax machine in the world for free. All you need is a web browser and a Microsoft account (your Hotmail or Windows Live ID should also work).

To get started, go to [hellofax.com/skydrive](http://hellofax.com/skydrive) and click the "Sign-up with Microsoft" link. Once you are signed in, just upload any document and put in a fax number (with country code) to send your first online fax. Once your fax has been successfully delivered, a copy of the outbound fax document will be automatically saved in your SkyDrive.

You can use HelloFax to send Word documents, PDFs, text files, images and several other popular formats. You can also pull in documents directly from your SkyDrive, Box, Dropbox, Evernote and Google Drive accounts for faxing.

Your free account will only help you send faxes to other numbers but in order to receive faxes, you'll have to buy an incoming fax number that costs around \$7.99 per month.

**Update** – If you don't have a Microsoft account, go to [hellofax.com/googledrive](http://hellofax.com/googledrive) and use your Google Account to sign-up for HelloFax. You will still get credit for sending up to 50 faxes per month for free for a maximum of 6 months.
